

Those that fly with us say...

"What an **amazing** experience!"

Mission Statement—To preserve and maintain combat (WWII vintage) airworthiness of aircraft which were flown by all military services of the United States for the education and enjoyment of present and future generations of Americans. To perpetuate in the memory and in the hearts of all Americans, the spirit in which these great planes were flown in the defense of our nation. To establish and maintain an organization having the dedication, enthusiasm and esprit de corps necessary to operate, maintain and preserve aircraft as symbols of our American military aviation heritage.

Get To Know Us

The Buffalo Heritage Squadron is a 100% volunteer organization founded in August of 2014. We provide the WNY area with a chance to preserve and experience some of the greatest pieces of aviation America has ever created. We are a not-for-profit organization and an official chapter of the Commemorative Air Force. As such, we are a flying museum, operating and maintaining a WWII vintage SNJ-4 Navy Trainer Aircraft.

We are proud to educate on the rich aviation history of Western New York and its citizens that sacrificed their time, effort, and lives for our great country. We demonstrate this history with our primary asset, an airworthy 1943 SNJ-4 (commonly known as a T-6 Texan); an advanced trainer for WWII pilots. We give the public an opportunity to learn about a piece of history, sharing stories of **courageous veterans of the sky and to experience flight with our pilots.**

Get Involved

You can help now by supporting our mission! When you purchase a sponsor package, you will make an immediate impact to our organization. You will also receive the gifts noted with each sponsor package.

Your **tax-deductible** donation will help us keep our mission alive to share for future generations. Funding provided will be used to maintain our 1943 SNJ-4 as an airworthy piece of history. This includes hosting special events to educate the public of why we exist, showcasing our Buffalo NY aviation history and technological achievements, including remembrance and sacrifices of the “bravest generation” that protected our country and freedom.
